

FOR IMMEDIATE RELEASE:

Machine Solutions Inc. Launches Build To Print Assembly Services Business Unit

FLAGSTAFF, AZ USA, January 2011 – Machine Solutions Inc.-

Machine Solutions Inc. (MSI) is pleased to announce the launch of its Build To Print Assembly Services business unit located in Phoenix, Arizona. Along with dedicated facilities, machinery and staff, MSI has established a separate online presence at www.MSIBuildToPrint.com.

“Adding build to print assembly services is a strategic fit within the core engineering and complex assembly capabilities developed at Machine Solutions, Inc,“ said Daniel Kasprzyk, chief executive officer, Machine Solutions Inc. “This core expertise has established MSI as a trusted global brand in just over ten years.“

MSI’s new Build To Print Assembly Services division offers many benefits to manufacturers such as limiting the need to staff for fluctuations in demand, meeting aggressive lead times, utilizing experienced assemblers for mechanical and electrical assembly, and reducing inventory. “MSI has positioned itself with added value to the existing customer base by offering build-to-print services along with added value engineering. The Phoenix staff has over 75 years of combined experience which is inclusive of mechanical, electrical and software engineering,“ said John Philippi, vice president and chief operating officer, Machine Solutions Inc.

About Machine Solutions Inc.

Machine Solutions Inc. (MSI) was founded with the mission of providing innovative and effective proprietary mechanical solutions to a variety of complex process and device design challenges. MSI has been instrumental in automating manual processes within catheter and stent manufacturing operations and within the device industry.
